LSC 3 | 12:00 - 1:00PM

“Immune Modulation via Polymer-Based Bioengineering of Allogeneic Cells

Mark D. Scott, Ph.D.

Senior Scientist - Clinical Professor
Canadian Blood Services - University of British Columbia

	<p>Mark D. Scott, Ph.D. <i>Senior Scientist – Clinical Professor</i> Cellular Immunocamouflage</p>
	<p>Ning Kang, Ph.D. <i>Research Associate</i> Polymer-Mediated Induction of T Regulatory Cells</p>
	<p>Xining (Linda) Yang <i>Ph.D. Candidate, Pathology</i> Cancer Immunotherapy via IA1 - a Novel miRNA-Based Therapeutic</p>
	<p>Meera Raj, Ph.D. <i>Postdoctoral Researcher</i> Building a Better Humanized Mouse?</p>
