LSC 3 | 12:00 - 1:00PM

What if We Never Discover Another Antibiotic?

Robert Hancock, OC, OBC, FRSC

Professor, Department of Microbiology and Immunology, UBC
Director, Centre for Microbial Diseases and Immunity Research

Sarah Mansour

Ph.D. Student

***A New Therapeutic Target for Multi-drug Resistant
Bacterial Infections***

Evan Haney

Post-Doctoral Fellow

***Enhancing the Activity of Natural Host Defense
Peptides***

Beverlie Baquir

Ph.D. Student

***Cellular Reprogramming during Sepsis
Pathogenesis***

Sam Hinshaw

Ph.D. Student

Integrative Analysis of Multi-omic Data in Sepsis
