LSC 3 - Life Sciences Centre

2350 Health Sciences Mall

**12-1pm**

## Dr. Shubhayan Sanatani

*Pediatric Cardiac Electrophysiologist*

*Children's Heart Centre*

*BC Children's Hospital*

**“Sudden death in the young: *The more we study, the less we know!*”**

In this seminar, Dr. Sanatani, Associate Professor in the Department of Pediatrics, will introduce the discipline of clinical pediatric cardiac electrophysiology, with an emphasis on sudden death in the young. The talk will provide insight into the translational nature of inherited heart rhythm disorders research.

In this session, we will:

- Introduce the field of pediatric electrophysiology
- Discuss a case which highlights the complexity of sudden death in the young
- Provide an overview of sudden death in the young
