

CBR Summer Seminar Series

Wednesday, August 21 | LSC 3 | 1:00 – 2:00pm

Zandstra Lab

School of Biomedical Engineering, UBC
Michael Smith Laboratories, UBC

General Topic: **"Stem Cell Engineering"**

Dr. Daniel Aguilar-Hidalgo, Research Associate

Dr. Himanshu Kaul, Postdoctoral Fellow

Asel Primbetova, PhD Student

"Stem cell engineering"

"Generating tissue capable of forming blood-progenitor cells at clinical scales"

"Engineering 3D artificial thymic niche for generation of progenitor T cells"
