

“Seeking solutions to solve thrombo-inflammatory disorders”

Date & Time: Wednesday, July 20 | 1:00PM - 2:00PM PT

Hybrid: Life Sciences Centre Room 1003 (LSC3) & Zoom

From the lab of: Dr. Ed Conway, *Professor*

Department of Medicine, Centre for Blood Research

Presented by: Kevin Gonzalez, Paniz Ghavimi, Dr. Patricia Benedet, Dr. Ed Conway

Members of the Conway lab will review recent advances in our understanding of the mechanisms underlying the coordinated regulation of coagulation and inflammation, with potential applications in the design of novel biocompatible surfaces and approaches to treat disorders in coagulation and type 2 diabetes.
